DUPLEX PREMIUM
SAFETY INFLATION CAGE

TBR 1200 is an updated and facelifted version of the TBR 1100 safety inflation cage.

The safety inflation cage for truck wheels can be combined by different modules.
This way it is possible to achieve exactly the inflation cage, that fits needs and wishes.

The cage can be fitted with 2 roll-out systems, whereby it is easy to load
a wheel from both the front and the back.

TBR 1200 has a bottom made of galvanized steel.
This new construction reduces the risk of formation of corrosion
on the contact surface with the floor.

FEATURES

– Offers a high level of safety when inflating truck wheels

– Meets all the individual needs of an advanced workshop

– Order the basic cage and choose the wished accessories below
  or choose one of the two complete cages.

– Possible to connect two or more TBR 1200 cages
